

Yuliia D.

Manual QA

Summary of Qualifications

I'm a detail-oriented QA Engineer with a strong foundation in manual and black-box testing for web and mobile applications.

2+ years of hands-on experience in functional, usability, regression, integration, and performance testing. Skilled in writing test documentation, identifying bugs, and improving product quality using tools like Jira, TestRail, Postman, and Chrome DevTools. Solid understanding of SDLC, STLC, and Agile (Scrum, Kanban).

Also brings over 6 years of experience in full-cycle recruitment, supporting IT and non-IT roles for international clients.
